FOR THE

RECORD

OF THE

ANNUAL REPORT
OF THE
PARK DEPARTMENT
FOR THE
YEAR ENDING JANUARY 31, 1924.

BOSTON, January 31, 1924.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,— The Park Commission herewith submits its annual report for the year ending January 31, 1924. That of the Deputy Commissioner hereto attached, describes fully the details of our year.

Very respectfully yours,

JAMES B. SHEA, *Chairman.*

CHARLES A. COOLIDGE,

MYRON P. LEWIS.

Commissioners.

REPORT OF WILLIAM P. LONG, DEPUTY COMMISSIONER.

To the Board of Park Commissioners:

DEAR SIRs,— I respectfully beg leave to submit a report of the work performed under the direction of your Board during the year 1923. This report is chiefly an enumeration of the principal items of work completed.

PLAYGROUNDS.

One of the outstanding features in our very excellent system of playgrounds has been the opening of bleachers at three of the playgrounds, most largely used by the twilight baseball league:

Christopher Gibson Playground was opened early in the spring, the bleachers there can accommodate 3,000 people. The improvements at this playground amounted to \$50,000.

The Christopher Lee Playground in South Boston, considered one of the best equipped playgrounds in the country, with bleachers to accommodate 4,000 people, was established. This playground was opened on June 7, 1923. Although the erection of the locker building was somewhat delayed, it is now ready for use. The entire cost of improvements at this playground amounted to \$100,000.

At the John J. Connolly Playground in Roxbury, opened on September 15, 1923, the bleachers can accommodate 3,500. The entire cost of improvements at this playground amounted to \$44,000.

The very large number of people frequenting these playgrounds during the season of the Twilight League and also of the Municipal Baseball League demonstrates the fact that the money appropriated for this purpose was well expended and is appreciated by a very large number of our citizens.

At many other playgrounds, extensive improvements were made, namely, at Mary Hemenway Park and Playground in Dorchester, at Smith's Pond Playground, Hyde Park, where a new locker building was erected and extensive grading done at an expense of \$25,000; Stanley J. Ringer Playground, Allston, the ball ground was graded and other improvements made at a cost of

\$12,562; shelters for the children were erected with swings and other apparatus at Portsmouth Street and Stanley Ringer Playground.

At the Fens, a beginning was made on the proposed athletic field for the use of the large number of students in the neighboring educational institutions,—bleachers have been erected to accommodate 2,100 people.

The stretch of bleachers completed this year is so arranged that it can be added to when sufficient funds are available, and it has been demonstrated that an increased capacity is necessary, at a cost of \$46,500.

There is a great amount of uncompleted work on the various playgrounds: Orient Heights Playground, at East Boston, is partly filled with material taken from Eagle Hill; the work of grading at World War Memorial Park and the erection of bleachers, the drainage, etc., is partially completed. The work on the new building has just been started,—it was delayed on account of lack of funds. The entire amount to be expended at World War Memorial Park is \$100,000. This will place this park in an excellent condition, wanting only the necessary funds for the erection of a new bath house.

The improvements on the North End Park have been carefully studied by the architect and the landscape advisor and they are now ready to start the construction work.

The William J. Barry Playground in Charlestown has been extended and a sufficient area for a major playground established. This work was done through an appropriation of \$200,000 for the purchase of land, buildings, etc. The buildings have just been removed and arrangements will be made for the grading, leveling and laying out of the playground for athletic sports.

The department, during the present summer, turned over, with the permission of the Legislature, to the School Department two plots of land, Eagle Hill Playground and William Amerena Playground, formerly Cottage Street Playground. The department expects to take over two plots of land in the neighborhood of each of the above playgrounds mentioned and will be obliged to receive sufficient sums of money to develop same.

The bleachers contemplated during the present year at Eustis Street and William E. Carter Playgrounds should be erected during the coming year. It is desirable that this work should be started as early as possible in order to get ready for the baseball season.

PERMANENT ROAD RESURFACING.

The policy adopted in the year 1922 for the permanent resurfacing of boulevard roads was continued in 1923, and the following work was completed:

On Commonwealth avenue, between Warren street and Sutherland road, 16,000 square yards of reinforced concrete were laid at a cost of \$4.67 square yard, \$74,784.48.

This is looked upon by experts as the best piece of concrete pavement laid in this state.

On Commonwealth avenue, between Chestnut Hill avenue and the Newton line, 16,000 square yards of bitulithic pavement were laid at a cost of \$2.64 square yard, \$42,253.12.

In the Fens, 20,000 square yards of bitulithic pavement were laid at a cost of \$2.14 square yard, \$42,799.95.

In the Parkway, from a point near Lochstead avenue to South street, Forest Hills, 21,000 square yards of bitulithic pavement were laid at a cost of \$2.66 square yard, \$108,908.21.

This completes the permanent resurfacing on the main parkway with the exception of a small area in the Fens, another small area at Commonwealth avenue and the Parkway from Forest Hills to Franklin Park.

ROSE GARDEN.

The establishing of a Rose Garden at Franklin Park is a notable one in the history of the Park Department. It has attracted a great deal of attention, not only in the city, but through the country, as constant inquiries are being made regarding it. It is an accomplishment that Boston may well be proud of. The construction work was completed so late in the year that it was impossible to plant the entire area, but the results proved very satisfactory, and a continuous bloom of roses appeared from early in June until the middle of October.

In the neighborhood of the Rose Garden bordering on the Greeting, a large number of shade trees were planted, and this work will be continued further in the spring.

GOLF LINKS.

The golf links laid down last year were opened for the first time this spring under a new arrangement, by which each player paid the nominal fee of \$10 for the use of

the links. The privilege of using the links is necessarily confined to citizens of Boston, as otherwise it would be impossible to accommodate the large number outside who desire to play. The fee for those who are not regular players has been established at \$1 per day. It is gratifying to say that the receipts have far exceeded our expenditures and amount to \$21,000.

The accommodations have been improved by the establishment of a booth at the first tee and seats and fountains at the various tees and other points where they are necessary.

The accommodations at the Refectory Building for lockers, showers, etc., are being extended in order to provide for the future increase in attendance.

ZOOLOGICAL GARDEN.

The Zoological Garden has been improved by the addition of three new buildings in the ranges for deer, elk, antelope, camels, etc. New attractions have been added by the purchase of a tiger, a couple of lions, pair of zebras, two camels, sable antelopes and a number of birds of different species, so that at the present time the city may be proud of a very attractive zoological exhibit.

Recommendations.

I respectfully recommend the following improvements in the present Zoological Garden: The extension of the lion house by the addition of four cages; the erection of a monkey house at an approximate cost of \$70,000. The addition to the lion house would probably cost not more than \$30,000, as it is merely an addition to the present structure which was left with a temporary wooden end, anticipating at some time another addition. It will require no heating apparatus with the exception of the extension of the pipes necessary to heat the proposed addition.

The department advocates the extension of granolithic walks along the Parkway, as experience proves that the public will not use the macadam or gravel walks now established in many parts of the Park System.

BEACHES.

The beaches throughout the department were patronized to the limit during the year 1923. I take pleasure in reporting that through the efficiency of our life guards, not one single life was lost on any beach

under the control of this department. The beaches were sanded and graded early in the Spring and repairs made on all the houses.

It will be desirable to locate a new bath house at the World War Memorial Park if funds can be had for the same.

The most important work in the department during 1923, has been the development of Columbus Park at the Strandway, South Boston. A large and well equipped bath house was erected on the beach, centrally located, between Preble street and the bridge over the Old Colony Railroad, so that it can be easily reached by those coming on the cars either from the city or the suburbs. It is considered the best equipped bath house in the country, and it was erected at a total cost of \$220,000. The granolithic walks, the new bituminous road, drainage and other work of that nature is finished; the grading and loaming is very nearly completed and will be ready for seeding and planting in the spring.

Improvements. — The bathing beaches were all very much improved last year by the generous quantity of sand placed thereon. The department has been more liberal this year in this respect than it has been in the past, and work has been very much appreciated by those using the beaches.

GYMNASIUMS.

The activities in the gymnasiums were extremely gratifying during the past year. The attendance, especially in the women's classes, was largely increased. The curriculum was enlarged and demonstrations were held in all of the buildings.

MOTH AND TREE DIVISION.

The infestation of the gypsy moth in the City of Boston was considerably lessened, due to the effective Winter work and the spraying operations during the early Spring. The outbreak of the satin moth in the South Boston and Back Bay Fens and Brighton districts necessitated a great deal of spraying. The inspection force visited the entire area within the City of Boston, and we have at the present time a fully tabulated list of infestations. It is gratifying to report that the depredations of the leopard borer were not so severe as in the year 1922. This, in a great measure is due to the effective pruning and the careful removal of the

small twigs during the month of June, in which the young lava are starting their work. Over 40,000 estates were cared for and about 450 trees were planted during the year.

BAND CONCERTS.

An appropriation of \$20,000 was expended for band concerts during the summer months and the policy adopted by the Park Department in 1921 was continued. The band concerts being held at Boston Common, Marine Park, Franklin Park and Savin Hill, Jamaica Pond and World War Memorial Park; 128 concerts in all were given and they were very well patronized.

AQUARIUM.

The past year has been an unusually profitable one at the Aquarium. It witnessed the completion of many needed repairs and improvements. The collections made were exceptionally productive, so much so that, for the first time in years, the Aquarium entered the winter with both exhibition and reserve tanks well stocked with desirable specimens, many of which are excellent examples of their species. It is gratifying to note that at no time in its history has the Aquarium been better equipped to carry on its work in the field of nature study.

Improvements.— Among the important improvements finished at the Aquarium this year is an electrically driven ventilator fan which was installed in the dome over the seal pool. This machine is capable of changing the air in the entire main hall in a few minutes and it has effectively eliminated the unpleasant odor that was noticeable about the pool in warm weather. The disused trout boxes that formerly divided the main hall have been removed and replaced by a brass rail.

Collections.— During the year, the Aquarium staff made twenty-eight collecting trips, ten of which were made in department trucks. These trips covered the greater part of the eastern half of Massachusetts. In addition to the regular collecting trips, an arrangement was made with the Detroit Aquarium, in September, whereby we received over 500 fishes, representing nineteen varieties native to the Great Lakes, in exchange for a like number of marine fishes, which were collected by the Aquarium staff at Wood's Hole. In October, through the courtesy of the United States Bureau of Fisheries, we received 155 marine fishes from the

Aquarium at Wood's Hole. We are also indebted to the Massachusetts Fish and Game Commission for the receipt of 200 fishes representing six species. A chart showing the remarkable growth of the exhibits at the Aquarium since 1919 is appended to this report.

Hatchery.— The trout boxes, removed from the main hall, were set up near the reserve tanks, in February, and 1,000 brook trout eggs, presented by Mr. C. L. Hawthaway, were incubated as an experiment. There are on exhibition at the present time, 250 brook trout that were raised from this lot. Some of them are seven inches in length. This winter the hatchery has been started again and already 3,000 lake trout and 250 golden trout eggs are incubating. It is hoped that this feature will provide a constant supply of native and Western trout for exhibition, some of which would be otherwise unprocurable.

Attendance.— One hundred and ten thousand during year.

The past year marks the beginning of a progressive policy of improvement at the Aquarium and its accomplishments are but the forerunners of greater improvements to come. Work will soon commence on a new hard lead salt water piping system which is to replace the present worn out system. Other contemplated improvements are a room for the exhibition of balanced aquaria, concrete tanks to replace the present wooden ones, and, in the not too dim future, an addition to the present building which will place the Boston Aquarium in a position to show the most varied and complete collection in the country.

GROWTH OF EXHIBITS AT THE AQUARIUM, 1919 TO 1923.

Census taken December 1, each year at close of collecting season.

CEMETERIES.

During the year 1923, the developing of an additional section of land in the Elm Grove section for 4,500 single graves was started. The work was done with our own force, with the addition of a hired steam shovel.

In the Fairview Cemetery in Hyde Park, additional land was opened for single grave lots and four grave lots.

In Evergreen Cemetery, additional land was developed for single grave lots.

The historical cemeteries were opened on Sundays and holidays.

It was extremely gratifying to say that the work of the Cemetery Division during the past year was very satisfactory. The grounds were kept in an extremely good condition and the roads were thoroughly repaired.

RECOMMENDATIONS.

I respectfully recommend that the sum of \$10,000 be appropriated for the planting of trees on city streets that were properly prepared for such planting; also, to continue the plan of the Greeting and restore evergreen planting in the Pine Bank.

It is also desirable to extend the granolithic walks along the parkway; experience has proved that the public will not use the macadam or gravel walks now established in many parts of the Park System.

The continuation of the policy of permanent pavement and small areas in the Fens, Commonwealth avenue, from Naples road to Warren street; Francis Parkman road, from Perkins street to Prince street, and the parkway, from South street to Forest Hills street. These roads have all been treated with a blanket coat of tar or oil, and have to be repaired several times a year on account of their destruction by severe auto traffic.

W. P. LONG,
Deputy Commissioner.

PARK DEPARTMENT — CEMETERY DIVISION.

The following annual report is presented of the Cemetery Division from February 1, 1923, to January 31, 1924:

DEPARTMENT CEMETERIES.

The burying grounds, cemeteries and tombs which are owned by and in charge of the City of Boston are as follows, with a total area of about 7,040,708 square feet.

EAST BOSTON.

Ward 1.

	Square feet.
<i>Bennington Street</i>	157,500

Ward 2.

<i>Rainsford Island</i>	43,560
-----------------------------------	--------

CHARLESTOWN.

Ward 3.

<i>Bunker Hill</i>	48,202
<i>Phipps Street</i>	76,740

CITY PROPER.

Ward 5.

<i>Copp's Hill, Hull street</i>	89,015
<i>King's Chapel, Tremont street</i>	19,344
<i>Granary, Tremont street</i>	82,063

Ward 6.

<i>South End South, Washington street</i>	64,570
---	--------

Ward 8.

<i>Central, Common</i>	60,693
----------------------------------	--------

SOUTH BOSTON.

Ward 10.

<i>Hawes, Emerson street</i>	11,232
--	--------

DORCHESTER.

Ward 11.

<i>North, Upham's Corner</i>	142,587
------------------------------	---------

ROXBURY.

Ward 12.

<i>Eliot, Eustis street.</i>	34,830
<i>Warren, Kearsarge avenue</i>	54,500

DORCHESTER.

Ward 21.

<i>South, Dorchester avenue</i>	95,462
---------------------------------	--------

WEST ROXBURY.

Ward 23.

<i>Westerly, Centre street</i>	39,450
<i>Walter Street</i>	35,100

Ward 24.

Mt. Hope, Walk Hill street, 117 acres and 36,536 square feet. Opposite Mt. Hope are two lots of unused land on Berry street, north corner Manning street, 7,150 square feet, and Berry street, south corner Manning street, 5,262 square feet.

HYDE PARK.

Ward 24.

Fairview Cemetery, Fairview avenue, about fifty acres.

BRIGHTON.

Ward 26.

Evergreen, Commonwealth avenue, 604,520 square feet.
Market Street, 18.072 square feet.
